Nancy Wynne Sees Exquisite Organdie Frock Worn by Miss Thayer-She Talks of Recent Engagements and Tells of a Baby's Efforts at Prayer

IT'S quite remarkable how we women love summer clothes and how we take the first opportunity possible to wear organdie or lawn or linen frocks. I organdie or lawn or linen frocks, I organdie or lawn or linen frocks, I organdie that I have the same polly Thayer the other evening at woodroyd, Merion, who will be married to Mr. J. Howell Cummings, Jr., or Saturday afternoon, June 11, at 4 o'clock, in the Calvary Presbyterian Church. Sixteenth and Locust streets.

Well, her cousin, Charlie Berwind, is engaged now. But not to a Philadelphia girl. His fiancee is Helen Bennett. She's one of the Boston Bennetts and has been on here to visit quite a lot. I hear she is very attractive and she certainly has been awfully popular in Boston. Charlie Berwind is the older son the Herry Berwinds. He went to Annapolis, you know, and was gradu-ated in 1916. Margaret Berwind is his Miss Joy Drew-Bear, of 102 South Eightelster and there is a younger brother. Harry, Jr. I understand that no date has been set as yet for the wedding.

Y SAW Mrs. Joseph Hemphill Dallett L on Chestnut street recently. She was Helen Dando and has been living in Wilmington since her marriage a couple of years or more ago. She was rearing a perfectly stunning sports suit I benna wool and her hat was fashioned of the same material. It was most be-coming, as was her neckpiece.

Why Oppose Nature?

Nature must have known what he was doing when she made the arch of the foot flexible. Why defeat her purpose by lacing the foot to a rigid sole? In ordinary shoes, stiff and unyielding, the foot lacks freedom. Such shoes weaken the nuscles by prohibiting their movement; they impede circulation by binding the foot. But the Cantilever Shoe is flexible, like the arch. shank is pliant, it bends WITH the foot. In Cantilever Shoes the muscles surrounding the small bones of the arch grow strong because they can exercise freely. Cantilevers correct and prevent flat foot by strengthening the arch in this sane, healthy way.

The last of a Cantilever Shoe is patterned from the outline of the foot. The natural inner sole permits the toes to point straight ahead, as they should for comfort. This and the well-set heel encourage correct posture. In Cantilevers you can walk or stand for a long time without the fatigue you feel in other

"The color of your hair is perfect and since I have been applying ED. PINAUD'S HAIR TONIC

The Hair Dresser Speaks:

after the massage treatment, it is simply wonderful in lustre."

'Yes, I have noticed that, and also that it does not come out when I brush it. The French people certainly know the Art of producing fine toilet requisites."

"Nothing equals the French products especially in the preparations sometimes called 'beautifiers'. French chemists possess the secret of making exquisite adjuncts to the toilette of women of culture.'

"That is true. For instance, the very first time you try ED. PINAUD'S Eau de Quinine Hair Tonic its purity and quality are at once evident, and inspire your confidence in its merit-I like its fragrance too. ED. PINAUD'S is especially fine in hot weather. It keeps the scalp clean and cool and dries quickly."

"Drying quickly is a great advantage. I avoid the use of any sticky substance in my hair dressing work. I only use liquid preparations. The only thing I use which has oil in it is ED. PINAUD'S Brillantine, which is fine if the scalp is too dry or the hair brittle."
